# CITY OF TORONTO

---

THE City of Toronto is situated on the northern shore of Lake Ontario, nearly due north from the mouth of the Niagara River. It lies in latitude  $43^{\circ} 39' 10''$  north, longitude  $79^{\circ} 23'$  west, on a plateau gradually ascending from the Lake Shore to a height of 220 feet, and covers an area (not including land covered by water) of about thirty-four square miles. Its altitude is 300 feet above sea level. It is generally level, with slight depressions at points where minor water courses formerly existed. The harbor in front of the City (approximately a square mile in area) is formed by an island lying to the south of it.

The name of the City is of Indian origin meaning "a place of meeting," the site in early times being a rendezvous for Indian tribes for council or warlike expeditions. It first appears as a centre of trade in 1749, when the French built a fort and started a small trading settlement under the name of Fort Rouille. Its occupancy, however, was not long undisturbed as British traders appeared from the south, and in the war between France and England the fort was burned in order to prevent English occupation in 1759.

In 1793, Governor Simcoe chose the site of the City for the Capital of the Province of

Upper Canada, and changed the name to York, in honor of the Duke of York, son of the then King George III. The town was occupied by the U.S. forces in 1813, and the Legislative Assembly buildings and archives were burned. Self-government was granted in 1817; and in 1834, the population having increased to 9,000, it was incorporated as the City of Toronto. (Date of incorporation, March 6th, 1834.)

Since then its progress has been rapid and substantial, the population up to the outbreak of the war having doubled practically every fifteen years since incorporation. The City is noted for its many fine public and other buildings, its parks and splendid shade trees. It is the Capital of Ontario, the business of the Province being carried on in the Parliament Buildings, a magnificent brown stone structure beautifully situated in Queen's Park.

As a location for manufacturing and commercial establishments, the City possesses many advantages for the production of almost every class of goods. Its growth in every direction has been so noticeable that little need be said to prove its claim of having the most favorable conditions for the production and distribution of goods. It has water communication east and west to many im-

portant centres, to tide water and to more than one-half the way across the continent; has railways to provide exceptional trade-handling facilities, and cheap electric power supplied by the Ontario Hydro-Electric Power Commission.

The government of the City is vested in a Municipal Council, consisting of the Mayor and four members, forming the Board of Control (all five being elected annually by the citizens at large) and twenty-four aldermen (three being elected annually from each of the eight Wards, into which the City is divided). The Council as a whole is the legislative body of the municipality, and carries on its legislative work through standing committees in the usual way. The Board of Control is the executive body, and, as such, is responsible for the preparation of the annual estimates and the supervision of matters relating to finance the appointment of officials, the carrying on of public works authorized by the Council, and the general administration of the affairs of the City, except as to the Departments of Education and Police, the first being under the control of a Board of Education, elected by the citizens, and the latter under a Board of Police Commissioners, which consists of the Mayor for the time being, and two Judges of the County Court.

## COURT OF REVISION.

W. Assheton Smith, *Commissioner*.

The Court sits upon the following days to hear appeals against the general assessment of the City:

|                 |                 |
|-----------------|-----------------|
| Ward No. 1..... | July 2nd.       |
| “ “ 2.....      | August 26th.    |
| “ “ 3.....      | October 14th.   |
| “ “ 4.....      | September 21st. |
| “ “ 5.....      | September 9th.  |
| “ “ 6.....      | July 15th.      |
| “ “ 7.....      | May 27th.       |
| “ “ 8.....      | June 4th.       |

Appeals must be filed within the time prescribed by statute, as stated on the notice of assessment, and should be lodged with the Assessment Commissioner.

The Court also sits from time to time throughout the year to hear appeals in respect of local improvements works.

All appeals for reduction of taxes, either on buildings in consequence of vacancy, or for any other cause, should be filed with the City Clerk.

The City Clerk is the Clerk of the Court.

## CITY HALL.

The City Hall, situated on Queen Street, between James and Bay Streets, is a massive stone structure, and contains accommodation for the Council and Officers of the Municipality, and for the Courts of Justice (including the Police Court) and the various Judicial Officers connected therewith.

The site, expropriated in 1884, was originally intended for Court House purposes only, but it was subsequently decided to erect a combined City Hall and Court House thereon. The corner-stone was laid on the 21st day of November, 1891, and the building was opened for public business on the 18th September, 1899.

In the tower of the building is a massive clock, of British manufacture, and three bells, which are used for striking the quarter hours, half hours, and the hours.

The dimensions, cost, etc., of the building are as follows:

|                                       |            |
|---------------------------------------|------------|
| Frontage . . . . .                    | 289 feet   |
| Depth . . . . .                       | 283 feet   |
| Circumference . . . . .               | 1,328 feet |
| Total floor space . . . . .           | 5.40 acres |
| Height of tower from sidewalk . . . . | 300 feet   |
| Diameter of clock face . . . . .      | 20 feet    |

CITY HALL.—*Continued.*

Weight of bells: Smallest (quarter bell), 1,904 pounds; next largest (quarter bell), 3,339 pounds; largest (hour bell), 11,648 pounds.

The total cost (including site, clock, bells and furniture) did not exceed \$2,500,000.

## BIRTHS, MARRIAGES AND DEATHS.

The number of births, marriages and deaths in the City of Toronto during the year 1930, as shown by the Registration returns, is as follows:

|                     |        |
|---------------------|--------|
| Births . . . . .    | 14,094 |
| Marriages . . . . . | 7,648  |
| Deaths . . . . .    | 6,819  |

All births and marriages must be registered at the City Clerk's Office, City Hall (Room 302), within thirty days from the occurrence thereof.

Deaths must be registered at the same office or at any police station before a permit to bury can issue.

Physicians attending are required to send in notices of births, and parents or occupants of dwellings where births occur, are required to register same.

Clergymen officiating are required to register marriages.

Physicians attending are required to certify as to deaths.

Neglect or failure to send in notice in either case renders parties liable to a fine not exceeding \$10 and costs.

Marriage licenses issued during office hours. Office, Room No. 21, Ground Floor, City Hall, west side.

## PUBLIC HEALTH.

The general death rate of the City in 1930, exclusive of still-births, was 11.3 per thousand of the population as returned by the Assessors in the year 1930.

The typhoid fever death rate was .6 per hundred thousand population. The death rates from scarlet fever and diphtheria were respectively, 3.7 and 11.1 per hundred thousand, and that for tuberculosis (including 115 deaths of Toronto people in sanatoriums outside the City) was 60.8 per hundred thousand.

The public hospitals in the City are located as follows:

Toronto General Hospital, College Street.

St. Michael's Hospital, Bond Street.

## LOCAL IMPROVEMENT WORKS

When the owners of property on any street or lane desire a pavement, sidewalk, curbing, grading, sewer or water main, or when the property owners in any locality desire the opening, widening, extension or diversion of any street or lane, application should be made to the Department of Works for a form of petition to the Council for the work or improvement. The petition issued by the Department contains an estimate of the cost of the work and the estimated rate of assessment per foot frontage. When the petition has been signed by two-thirds in number of the owners representing one-half in value of the property to be benefited, the Council may proceed with the work and subsequently assess the cost against the property benefited.

If it is found, when the petition is presented, that the names of two-thirds in number of the property owners representing one-half in value of the property have not been obtained, and if the Council nevertheless determines, on the recommendation of the Commissioner of Works, that the work is necessary and in the public interest, it may direct that the work be proceeded with, unless a majority of the interested property owners, representing at least one-half in value of the property to be

assessed, petition against it within one month after the Council has given notice of its intention to proceed therewith. The foregoing procedure, which is called the “initiative” procedure, may also be followed on the recommendation of the Commissioner of Works, or on the joint recommendation of the Commissioners of Works and Assessment in the case of certain works, when there has been no petition for the improvement.

Under authority of section 8 of the Local Improvement Act, the Council, if it deems a work necessary in the public interest, may proceed therewith, notwithstanding any petition to the Council opposed thereto. Appeal may be made only to the Ontario Railway and Municipal Board. The vote of the Council to proceed with the work must be a two-thirds vote of the whole Council.

Where non-abutting lands are to be assessed, as in the case of a trunk sewer, trunk water main, or the opening, widening, extending, diverting or grading of a street, a three-fourths vote of the whole Council is required to proceed with the work.

## INFORMATION FOR MOTOR DRIVERS

While the "speed limit" for motor vehicles in the city is set at 20 miles per hour, drivers of such vehicles are prohibited by law from from operating their vehicles recklessly or negligently, or at any speed or in a manner dangerous to the public, having regard to all the circumstances.

There are more than 100,000 motor vehicles owned in the City of Toronto and during the tourist season it is fair to estimate that there is an equal number of cars operated by visitors. To preserve the good record which the City has attained in the prevention of accidents, cars must at all times be operated with care and consideration for other users of the streets.

Motorists should remember that pedestrians have equal rights with them on highways and that in case of accident the onus of proof that such accident did not arise through negligence or improper conduct on the part of the owner or driver of the motor vehicle is upon the owner or driver. While traffic signals and lights are installed for the purpose of facilitating the movement of motor vehicle traffic at street intersections drivers of motor vehicles with the signal "Go" before them are

INFORMATION FOR MOTOR DRIVERS—*Cont'd.*

required to operate over the intersection in such a manner as to avoid the possibility of striking a pedestrian. A pedestrian having started to cross a street is entitled to continue across at a reasonable rate of speed and is not required to run or dodge motor cars that may be passing.

All accidents should be reported promptly to the police. The Ontario Highway Traffic Act provides for the suspension of drivers' licenses and motor car permits and the filing of proof of financial responsibility by persons involved in accidents and convicted of offences against the Act. The right to drive or own motor vehicles may be withdrawn for a period of two years for certain offences.

The management and control of the Public Libraries of the City are vested in a Board of Management. It is appointed pursuant to the provisions of the Act respecting Public Libraries and Art Schools (Chap. 202, R.S.O 1914), and is composed of the Mayor of the City and eight others, three of whom are appointed by the City Council, three by the Board of Education, and two by the Separate (Catholic) School Board. The persons appointed by the City Council and the Board of Education hold office for three years, and

those by the Separate (Catholic) School Board for two years. These members retire in rotation at the end of their respective terms on the 31st of January.

The Board holds its regular meetings on the second Friday of each month, and the Libraries and Finance Committee meets on the next preceding Tuesday.

The Libraries are maintained by an annual appropriation from the tax rates, under legislative enactment, of an amount not to exceed fifty cents per capita of the population of the City, as shown in the returns of the Assessment Department. This appropriation is obligatory, but by a vote of a majority of the members of the Council present and voting the appropriation may be increased to an amount not exceeding one dollar per capita. The Downtown Circulating Library is at No. 42 Adelaide Street West.

The Reference Library is situated at the corner of St. George and College streets. In it are the administration offices and the various departments attached to the Reference Division.

There are Branches also on Yorkville Avenue, near Yonge Street; Queen and Lisgar streets; Annette Street (Western); Broadview Avenue and Gerrard Street (Riverdale); 3-7

St. Clair Avenue East (Deer Park); Bathurst Street and Melgund Avenue (Wychwood); 14 St. Clements Avenue, near Yonge Street (Northern) on the corner of Bloor Street and Gladstone Avenue (Dovercourt); at 1647-49 Dufferin Street, near St. Clair Avenue (Earls-court); on Queen Street East, near Lee Avenue (Beaches); at 141-43 Main Street (Eastern); on the corner of Roncesvalles and Wright Avenues (High Park); at the northwest corner of Gerrard Street and Ashdale Avenue (Gerrard); at 701 Pape Avenue, near Danforth Avenue (Danforth); at the corner of Bloor Street and Glendonwynne Road (Runnymede); and a well-equipped Boys and Girls Library at 40 St. George Street, immediately north of the Reference Library Building.

There was opened during the past year the new Central Circulating Library, in the newly erected extension of the Reference Library building on St. George Street. On the removal of that Library, the quarters it had occupied were devoted to (1) a Central Reading Room with reading desks and tables and furniture with 150 of the leading Canadian, British and American newspapers and magazines; (2) The Music Library, a popular branch of the lending system; (3) the Lib-

rary's complete collection of the bound volumes of the Canadian, British and American patents.

The cost of the main Library building at College and St. George Streets, and of the Yorkville Avenue, Queen Street West, Annette Street, Broadview Avenue, Roncesvalles Avenue, Bathurst Street, and Queen Street East branches was met by funds provided by the late Andrew Carnegie. Sites and buildings for the other branch Libraries were secured by special appropriations from the City.

The Reference Library is open from 10 a.m. to 9.30 p.m.; the Central Lending Library and the Regional Branches (Dovercourt and Riverdale), 10 a.m. to 9 p.m.; the remaining Branch Libraries from 2 to 9 p.m., but closing on Wednesdays.

In the new section of the Central Library Building (St. George and College Streets) the Historical Room will contain the famous J. Ross Robertson Collection of engravings, prints and paintings illustrative of early life in Canada. This is the largest and most valuable collection of Canadian prints in existence, now numbering 4,000 pictures. The room is open to the public daily without charge.

PUBLIC LIBRARIES—*Continued.*

The Central building contains as well the unique collection of 214 water color pictures of game birds of early Canada executed by William Pope, also the gift of the late Mr. J. Ross Robertson, and from the same generous donor a large and valuable collection of maps and plans dating from the first of the French explorations in Canada. In this building also are stored the colors of Colonel (later Governor) Simcoe's regiment, the Queen's Rangers, of Revolutionary fame, and the Governor's swords. These priceless relics were presented to the Library by a public-spirited citizen, Frederick B. Robins, Esq.

The offices of the Libraries are located in the Central building, at the corner of College and St. George streets. The switchboard telephone number is Kingsdale 1152, through which connection may be had with all departments.

After 5.30 p.m., the following lines continue in use:

## CANADIAN NATIONAL EXHIBITION.

The Canadian National Exhibition, which is admittedly the largest annual exposition in the world, celebrates this year its fifty-third anniversary. The Canadian National Exhibition Association is composed of 141 representatives of manufacturing, agricultural, educational, art and other Canadian interests. It was incorporated under an Act of Ontario Legislature passed in the year 1879, amended by a further act passed in 1912. The Board of Directors consists of the mayor of the City of Toronto, and seven members of the City Council together with eight representatives of the manufacturing interests and art, and eight representatives of the agricultural interests, who are all elected at the annual meeting of the Association from amongst the membership of the Association. The Minister of Agriculture of the Province of Ontario is also (ex-officio) a member of the Board of Directors. In addition, the past presidents of the Association are life directors. The 1931 Board of Directors is as follows:

## GROUNDS AND BUILDINGS.

Exhibition Park contains permanent buildings which are accounted the world over as masterpieces of exposition architecture. Those comprising the main group are constructed of steel, stone, concrete and brick, and are truly worthy of the high standard attained by

the exhibition they house. Amongst the newer buildings are: the Pure Food and International, the Coliseum, the Automotive, and the Province of Ontario. In 1927 at the cost of \$1,400,000, the largest live stock exhibit buildings in the world were erected as an annex to the Coliseum, and the new Eastern Entrance, opened by His Royal Highness the Prince of Wales, in company with His Royal Highness Prince George, and in consequence named "The Princes' Gates," was one of the major features of that year's Exhibition. A new Engineering and Electrical Building was provided in 1928 at the cost of \$600,000. and in 1929 the automotive interests were housed for the first time in a magnificent million dollar building. The great new horse Pavilion is being erected this year at a cost of one million dollars. Exhibition Park, situated on the shores of Lake Ontario and extending along the water front for upwards of one and one-half miles, comprises 350 acres and forms, when not in use for exhibition purposes, a magnificent public park and playgrounds affording facilities for every branch of sport. The following table shows the space available for exhibits in the principal buildings:

ROYAL AGRICULTURAL FAIR—*Continued.**1931 Royal Dates.*

November 18th to 26th, inclusive.

The Royal Agricultural Winter Fair, of which the 10th annual show takes place in November, 1931, has grown to be the largest indoor exhibition and the most comprehensive all-round agricultural show on the continent. It is held annually in the Royal Coliseum and new Live Stock Buildings at Exhibition Park. The Royal brings together growers and breeders from every province in the Dominion, and in this way establishing for all Canadian agriculture common ideals of quality. An increasing number of exhibitors from the United States is also noticeable, so that a Royal award carries international prestige.

The Royal Winter Fair Association steadily endeavors to make the Fair distinctively representative of Canadian agriculture—a national “show-window” for this great industry. The association itself is representative of many-sided interests. It includes the Ministers of Agriculture for the Dominion and the nine provinces; the mayor and members of the Board of Control, the Parks Commissioner and the Finance Commissioner, representing the City of Toronto; the Federal and Provincial Deputy Ministers of Agricul-

ture; the heads of agricultural branches for the Dominion and the various provinces; three representatives from each of the sixty-four agricultural and live stock associations, including representatives of the meat packing and other industries and organizations closely allied with agriculture. The total membership is 240.

The magnificent new Live Stock Building is the largest and most completely-equipped building of the kind in the world, houses in comfort 2,000 cattle; 1,500 sheep and 1,200 swine. With the Royal Coliseum, there is an area of nearly twenty acres under cover comfortably heated. In co-operation with the City of Toronto, the Dominion Government and the Ontario Government, arrangements have been completed for the erection of new Horse Stables that will place the accommodation for this Department in line with the other live stock. The plant for housing the live stock at the Royal will, when complete, be unequalled in any place in the world. 1,200 stalls are to be provided, of which 700 are box stalls. It is expected that the new Stables will be available for the Fair, November of this year.

The Royal Horse Show attracts many outstanding horses from the leading stables

of Canada and the United States. The Poultry and Pet Stock Show leads the continent in point of entries. The Royal Fox Show is a most interesting feature, with exhibits from Prince Edward Island, to British Columbia. Each of the many other sections of the Royal is a comprehensive show in itself—Flower Show, Fruit and Vegetable display; Dog Show; Cat Show; Dairy Products and Honey; grain and seeds, exhibits of farm machinery, equipment and domestic appliances.

The Royal Fair is an acknowledged unifying influence in Canadian agriculture. Breeders and growers from widely-separated districts find in it a common source of inspiration in the effort to attain still higher quality in their live stock and farm produce.

## TORONTO HARBOUR COMMISSIONERS.

The Toronto Harbour Commissioner's Act (1 and 2 Geo. V, chap. 26) was passed by the Dominion Government in 1911. It provides for the appointment of five Commissioners, three of whom are appointed by the City Council, and two by the Dominion Government, one of the latter appointees being on the recommendation of the Board of Trade. This Act also defines the powers and duties of the Commissioners.

Following the appointment of the Commissioners, the City Council, under the authority of an Act of the Provincial Legislature (1 Geo. V, chap. 119) transferred to the Commissioners Ashbridge's Bay marsh and the waterfront properties owned by the City.

The activities of the Commissioners commenced in February, 1912, and in September of the same year the final plans were approved by the City Council, and in June, 1913, by the Dominion Government.

The work contemplated by these plans was estimated to cost \$19,000,000, and consisted of the reclamation of Ashbridge's Bay, a marsh tract of 1,000 acres, now called the Eastern Harbour Terminals; the construction of a ship channel, turning basin and

circulating channel, marginal way wall and retaining walls on each side of Keating's Channel; the construction of a new harbour head line from York to Yonge streets and the reclamation of the area enclosed by it; the deepening of the whole harbour to a navigable depth of 24 feet, with provision for an ultimate depth of 30 feet; the construction of outside breakwaters and the reclamation of 900 acres of land for park and recreational purposes at the east and west ends of the city and on Toronto Island.

In the Eastern Harbour Terminals 714 acres of industrial lands have been reclaimed of which 529 acres are north of the Ship Channel and 185 acres south of the Ship Channel; a bascule bridge has been constructed across the Ship Channel at the foot of Cherry Street giving the latter area direct access with the City.

In the Central Harbour Terminals 302 acres of Industrial lands have been reclaimed, 76 acres of which are east of Yonge Street, and Fleet Street has been extended easterly to Cherry Street and paved to Sherbourne Street, giving access to the above lands.

The following improvements have been constructed in these districts:

Each year shows a marked increase in the area of industrial sites sold and leased. The area of the lands disposed of now totals 340 acres and the firms occupying same have invested approximately \$31,000,000 in land, buildings and equipment as a result of which the assessed value of the land, buildings, business and income of harbour properties has increased from \$1,976,804 in 1912 to \$19,190,654 in 1930, and the taxes receivable from Harbour properties from 1912 to 1930, inclusive, totals \$3,275,321.

The City of Toronto advanced to the Toronto Harbour Commissioners under guarantee of bonds, since 1912, \$2,948,405.

The taxes on the Assessment of \$19,190,654 due in 1931, based on a rate of 33.6 mills, will add upwards of \$644,806 to the total of the taxes already received by the City.

TORONTO HARBOUR COMMISSIONERS—*Cont'd.*

The Local Improvement Taxes on Harbour Lands since 1926 total \$577,602.21 and are as follows:

|                    | Increase over<br>previous year. |
|--------------------|---------------------------------|
| 1926..\$ 54,530.00 | \$23,124.29                     |

\*Estimates.

Of the eighteen corporations which furnished one-ninth of the City Taxes in 1930, the Toronto Harbour Commissioners ranked eleventh, with a payment of \$114,982.42; this year, owing to the increase in local improvement taxes, the Toronto Harbour Commissioners may occupy seventh place.

The excess acreage of wide streets over streets 66-feet wide dedicated as public highways by the Toronto Harbour Commissioners is as follows:

Western District, 2.137 acres; Central District, 11.492 acres; Eastern District, 14.463 acres; Total: 28.092 acres.

TORONTO HARBOUR COMMISSIONERS—*Cont'd.*

In the western section between Dowling Avenue and the Humber River, 217 acres have been reclaimed. The Boulevard Drive, 50 feet wide, has been completed from the Humber River to Bathurst Street, a distance of approximately four miles. A promenade, 24 feet wide, has been laid from the Humber River to Wilson Avenue, thence 12 feet wide to Dowling Avenue, and the Traffic Highway, 54 feet wide, which takes the place of the old Lake Shore Road, between the Humber River and Sunnyside Bridge, has been constructed, on which the Toronto Transportation Commission have laid their tracks and are operating cars. Amusement concessions have been leased, and buildings and amusement devices erected.

Sunnyside Beach was formally opened on June 28th, 1922. It now contains a bathing pavilion, with accommodation for 7,700 bathers at one time. Adjoining this is a swimming pool 300 feet long by 75 feet wide, with a depth grading from  $2\frac{1}{2}$  feet to 9 feet and a capacity of 750,000 gallons. The water is filtered continuously making a complete change every ten hours. It is also chlorinated. A heating plant maintains a temperature of 68 degrees Fahrenheit. There are also

## TORONTO TRANSPORTATION COMMISSION.

The Toronto Transportation Commission, acting on behalf of the City of Toronto, took over, on September 1st, 1921, the control of the Toronto Railway Company's System and the Civic Lines. It was incorporated by an Act of the Ontario Legislature assented to June 4th, 1920. The Act of Incorporation is 10-11 Geo. V, 1920, chap. 144, which may be briefly summarized as follows:

(1) The Commission consists of three members, appointed by the City Council to serve for three years, and to be paid such salary or other remuneration as may be fixed by Council.

(2) No member of the City Council is eligible for appointment as a member of the Commission.

(3) The Commission is entrusted with the control, maintenance, operation and management of:

(a) The Toronto Railway Company upon its acquisition by the City.

(b) The Civic Lines.

(c) Any other street railways that the City may from time to time acquire.

(4) The City may at any time entrust to the Commission the construction, control, maintenance, operation and management of

TORONTO TRANSPORTATION COMMISSION—

lines of motor buses, or subways, or of tubes, or of any method of underground or local overhead transportation. (This was done by By-law No. 8564.)

(5) To consider generally all matters relating to local transportation in the City of Toronto.

(6) To construct, control, maintain, operate and manage new lines of street railway.

(7) To fix such tolls and fares so that the revenue of the Commission shall be sufficient to make all transportation facilities under its control and management self-sustaining after providing for such maintenance, renewals, depreciation and debt charges as it shall think proper.

(8) To requisition the City for money necessary to carry out its powers and duties. But nothing contained in the Act of Incorporation shall divest the Council of its authority with reference to providing money for such purposes.

(9) The Commission to furnish the City annually an Operating and Financial Statement, and keep its books at all times open for inspection by the Audit Department of the City.

TORONTO TRANSPORTATION COMMISSION—  
*Continued.*

The fares chargeable by the Commission are as follows:

*Fares for Adults:*

Four tickets for 25 cents; fifty tickets for \$3.00; cash fare, 10 cents.

*Fares for Children:*

(a) Not in arms and not over 51 inches in height: cash, three cents; ten tickets for 25 cents; night fare, same as adults.

(b) School Children's tickets:

School Children's tickets are sold at the rate of seven for 25 cents, and are for the use of all school children, under 16 years of age. The tickets are good only going to and from school, between the hours of 8 a.m. and 4.30 p.m., and are not valid on Saturdays, Sundays, or on other days when schools are closed.

Free transfers are issued between all street cars within the city limits, and between street cars and "feeder" buses within the city limits.

The average fare collected on the unified street car and motor bus system in Toronto is 6.19 cents as compared with 7.77 cents, the average fare collected in all cities of 50,000 or larger population in Canada and United States.

TORONTO TRANSPORTATION COMMISSION—  
*Continued.*

*Motor Coach Services:* Besides the 95 buses serving the bus routes of the city transportation system, which act as feeder services to the main system, the Commission operates under the name of Gray Coach Lines, Ltd., 119 coaches providing the following services:

The "Hill" coach routes provide service with luxurious motor coaches operating between the "Hill" residential districts and the downtown business district. The fare is 8 tickets for \$1.00, or 15 cents cash, without transfer privileges.

*Toronto and Niagara Falls Service:* A daily service between Toronto, Niagara Falls and Buffalo is operated on which there is a minimum schedule of four round trips every day.

*Toronto and Hamilton Service:* The service between Toronto and Hamilton via the Lakeshore Highway is an hourly one, coaches leaving the Dundas and Bay Streets Terminal, Toronto, every hour on the hour, between 8 a.m. and 10 p.m., and leaving the Hamilton Terminal Station every hour on the half-hour between 6.30 a.m. and 10.30 p.m.

There is also service of three trips each way daily between the above terminals in Toronto and Hamilton via the Dundas Highway.

TORONTO TRANSPORTATION COMMISSION—  
*Continued.*

*Toronto-Schomberg-Cookstown-Alliston Service:* This service consists of two round trips daily between Toronto and Schomberg, via the Weston Road, with service extended in summer to Cookstown and Alliston.

*Toronto-Barrie-Orillia-Midland Service:* Three round trips daily are scheduled to provide service between Toronto and these northern towns. In summer the route is extended to Gravenhurst to serve Muskoka Lakes traffic, and to Wasaga Beach and Collingwood on the Georgian Bay.

*Toronto-Whitby-Oshawa:* This service provides a coach every hour from Oshawa and from Toronto, via the Kingston Road and Danforth Avenue.

*Toronto-Stouffville-Uxbridge.* Three round trips are scheduled on this route, with summer service extended to Uxbridge.

*Toronto-Brampton-Orangeville-Shelburne:* Frequent daily service is provided on this route to and from Brampton and intermediate points, with summer service extended to Orangeville and Shelburne.

*Toronto-Islington-Cooksville:* Frequent daily service is scheduled via the Lakeshore and the Dundas Highways.

TORONTO TRANSPORTATION COMMISSION—  
*Continued.*

*Toronto-Lambton-Islington:* Frequent daily service is scheduled via the Dundas Highway from Runnymede Road and Dundas Street, Toronto.

*Toronto-Kingsway Park-Islington:* Frequent daily service is scheduled from the western city limit of Bloor Street to Kingsway Park, via Bloor Street. This service is extended to Islington in rush hours.

*Sight-Seeing Tours:* In the year 1925 the Commission inaugurated a motor coach sight-seeing service to serve tourists and other visitors. Two city tours are operated, one a 12-mile one-hour drive, and the other a 22-mile, two-hour drive. On all tours, competent guides tell visitors of the history, achievements and landmarks of the city.

*Motor Launch Tours:* In 1929 the Commission inaugurated a service of Motor Launch Sight-seeing Tours. During the summer months the Commission's 29-passenger sight-seeing launches operate a schedule of hourly tours that include the Toronto Harbour and Waterfront Developments, the Toronto Islands and the lagoons and waterways of "Toronto's Muskoka."

*Chartered Trips:* The Commission's motor coaches have been very popular with lodges,

TORONTO TRANSPORTATION COMMISSION—  
*Continued.*

societies and other organizations for private transportation service in connection with lodge visits, picnics and various other outings.

*York Township and Weston Lines:* Starting in 1924 and 1925, the Commission undertook the operation of street cars for the Township of York in the Oakwood district, and the Mount Dennis district, and for the town of Weston. This service is provided at cost, any profit or loss from the operation going to the Township and the Town of Weston.

The fares on the York Township and Weston lines are as follows: Oakwood, Rogers Road and Weston Road—5 cents cash; 11 adult tickets for 50 cents; children, 3 cents or 10 tickets for 25 cents; school tickets, 7 for 25 cents; night fare, 10 cents; transfers free between the lines mentioned, but not to city cars.

*Forest Hill, Leaside and East York Services:* In November, 1926, the Commission inaugurated bus services in the Village of Forest Hill under special agreement. During 1927 bus services were also commenced in the Town of Leaside and the Township of East York under agreement with these municipalities. The finances are entirely separate from those of other services operated by the Commission.

TORONTO TRANSPORTATION COMMISSION—  
*Continued.*

*North York Railways:* In 1930 the Commission commenced operation for the municipalities between Toronto and Richmond Hill on Yonge Street, of a street railway system providing frequent service to the municipalities en route. A zone fare rate is collected and financial responsibility for the system rests with the municipalities served.

*Ferry Operation.*

The Island Ferries, now owned by the City, were transferred to the management of the Toronto Transportation Commission in February, 1927. The fleet comprises six ferry boats and three freight craft, operating between the city mainland and the group of islands, part of the city, situated about two miles off shore. Ferry and freight service is provided between the mainland and three island points—Centre Island, Hanlan's Point and Ward's Island. The one-way trip to any of these points is made in about 15 minutes.

Rates of fare are the same on the ferries as on the city street car system, the same tickets being good on either service, but no transfer tickets are issued between the ferries and street cars.

TORONTO TRANSPORTATION COMMISSION—  
*Continued.*

The ferry service is managed by the Commission under an agreement with the City. Its finances are entirely separate from those of other services managed by the Commission.

The Commission operates 987 electric cars and 83 electric service cars. These travel a distance of approximately 28,000,000 miles in service during one year. The 236 buses and coaches travel approximately 5,500,000 miles yearly. Approximately 4,200 people are regularly employed by the Commission.

The Commissioners are as follows:

F. L. Hubbard, Acting Chairman.

Wm. C. McBrien.

S. J. McMaster.

D. W. Harvey, General Manager.

Offices: Public Utilities Building, Yonge and Front Streets. Phone, Adelaide 8001.
